

Code: P8007AAN

Possible Closure: n.a.

Lid: Not included

Product Description: RF550G PL/PL C+C NOBRAND 50/1000PZ

Recycled aluminium content: 45%

GENERAL FEATURES

Material type	Aluminium	External color	PLAIN
Pastille	NO	Format type	FOLDED RECTANGULAR - G
Lanced	NO	Packaging type	Cash and Carry
Number of pastille holes	0	EAN 13 stack	8011851800529
Number of lanced holes	0	EAN 13 box	8011851911546
Internal color	PLAIN	ITF 14 box	08011851800529

DIMENSIONAL FEATURES

Capacity (c³)	550	Height (mm) +/- 0.5	45
External top dimension (mm) +/- 0.5	149 X 109	Net weight piece (g) +/- 8%	7,92
Internal top dimension (mm) +/- 0.5	141 x 101	Thickness (µm)	70
Internal bottom dimension (mm) +/- 0.5	124 x 84		

PACKING FEATURES

Pieces per stack (nr)	50	Gross weight box (kg)	8,565
Stacks per box (nr)	20	Box volume (m³)	0,076
Pieces per box (nr)	1.000	External box dimension (mm - LxWxH)	593 x 388 x 329

PALLET FEATURES

Boxes per layer (nr)	4	Gross weight pallet (kg)	260,82
Layers per pallet (nr)	7	Pallet height (mm)	2.453
Boxes per pallet (nr)	28	Pallet type	Wooden EU NHT
Pieces per pallet (nr)	28.000	Notes	n.a.
Palletization design	n.a.		

Aluminium products are safe to use in microwave ovens constructed after 1983 following the instructions that can be found at:
<https://www.alufoil.org/aluminium-foil-and-microwave-ovens>

Plain aluminum containers can be used in the range of temperature -40/+350 ° C; avoid using them with strongly acidic foods or heavily salted with pH values below 4 or above 9.
 A packaging test must always be carried out by the user in order to determine the exact shelf life and functionality.

The products comply with prescriptions and limits of food contact legislation: Reg. 1935/2004/EC, Reg. 2023/2006/EC & updates, M.D. 76/2007 Products compliant with technical standards: EN 13430:2005, EN 602:2004.
